

For over 19 years Garcia-Zamor has represented clients of all sizes, from funded startups to multinational, publicly listed manufacturers. Their extensive patent experience makes Garcia-Zamor a great solution for your patent portfolio needs.

For businesses that file ten or more utility patent applications each year, Garcia-Zamor offers a web portal that can be used to access critical information regarding the status of patents and docketing information for tracking upcoming deadlines for patent applications.

For businesses that file ten or more utility patent applications each year, Garcia-Zamor offers clients a unique US Patent and Trademark Office customer number so that clients can receive real time notifications of status updates directly from the USPTO.

*If your business is not ready to develop a portfolio with hundreds of patent properties, that is okay. We will help you get there!!*

*Let your ideas run wild, but don't let others run away with your ideas!*

*Garcia-Zamor provides streamlined, efficient prosecution to foster portfolio growth. We also provide prompt, clear communications to keep your business informed at every stage of prosecution.*

Garcia-Zamor is experienced in handling patent portfolios for multinational companies and venture funded startups.

## Client Countries

**Garcia-Zamor  
in your corner  
of the world**

We regularly draft new utility patent applications in many technology areas, such as software, electronics, electro-mechanical devices, industrial equipment, materials manufacturing, and medical devices.

*Garcia-Zamor has experience preparing and prosecuting software applications that qualify as patent eligible subject matter. This knowledge allows us to successfully navigate 35 USC § 101 issues that may arise.*

# SAFEGUARDING YOUR TRUST

Garcia-Zamor delivers superior results in all patent related matters to provide breadth and depth to your patent portfolio.

The attorneys of Garcia-Zamor are experts in evaluating potential competitors in the marketplace to identify what technologies are being invested in and protected.

Our team effectively counsels clients to strengthen their patent portfolios and to maximize their competitive advantage in the marketplace.

Garcia-Zamor provides industry-leading patent analysis from infringement and clearance opinions to patentability studies and design arounds for competing products.

*Garcia-Zamor regularly works to enforce client patents. We have obtained successful results against large publicly traded competitors.*

*Garcia-Zamor has experience in US Federal Court litigating patent infringement issues. Our focus during litigation is obtaining your best business outcome.*
