Don't Build Your Competition's Business

Absent intellectual property protection, your competition is rewarded for copying all of your products, branding, and processes. Stop knockoffs and imitators before they start and contact the attorneys of Garcia-Zamor.

Patents • Trademarks • Startups • Litigation

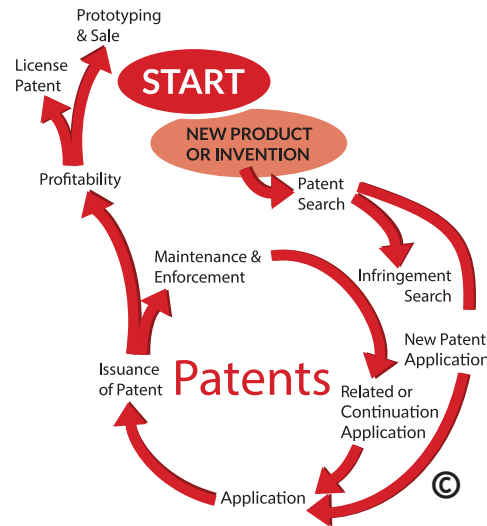

PROTECT YOUR PROFITS

We provide our clients with a wide array of legal services, from patent and trademark prosecution to licensing and business formation.

Your products, software, ideas, designs, tools, and methods of manufacturing should be patented.

New ornamental designs and improvements to existing products are often protected by patents.

Your brands, product names, and slogans should be registered as trademarks. Successful companies of all sizes, including startups, engage in branding campaigns. Trademark registrations are critical in maximizing the benefits of these campaigns by protecting your business reputation so that your business stands out in its industry.

PATENT SERVICES

We work closely with our clients to develop comprehensive patent strategies. The best patent protection may not come from a single patent, but from a portfolio of multiple-related patents, international patents, and the proactive enforcement of patent rights.

- Patent Searches & Patentability Opinions
- Patent Searches & Clearance Opinions
- Patent Audits & Patent Mapping
- Patent Studies & Infringement Opinions
- Provisional Patent Applications
- Design Patent Applications
- Utility Patent Applications
- Licensing, NDAs, Negotiations & Other Documents
- Enforcement & Defense Actions
- Flat Monthly Legal Fee Litigation Plans

TRADEMARK AND BRANDING SERVICES

Registered trademarks are a critical tool to prevent competitors from stealing your brands, product names, slogans, and online identity. Garcia-Zamor represents clients in all matters involving trademark law and provides legal advice on trademark and design matters. Our exclusive **TRADEGUARD®** service makes monitoring and enforcement of your brands affordable.

- Trademark Searches & Opinions
- Monitoring the Market & Enforcement
